Please note that the swatch colour here is only indicative of the leather colour. Each hide as it is tanned is subject to colour variations. Leather by nature of being a natural material has marks, slight creases and flaws, and varied colour. We use premium leather but variations may occur. It is impossible to guarantee the exact colour match to the swatch and please note that monitors also vary the way colour is presented. Colour availability may also vary, we recommend choosing two colors. [www.tanaandhide.com](http://www.tanaandhide.com)
